

Marco Flip

ABOUT

The Marco Flip Table combines a sleek design with exceptional versatility, making it an ideal choice for dynamic spaces. Its telescopic beam allows for easy installation, while the option of a wide or narrow foot type ensures compatibility with various top sizes. Designed for adaptability, this system streamlines the setup process without compromising on stability or style.

With a 'one size fits all' approach, the Marco Folding system offers a shorter lead time compared to other frames on the market. It features two locking and two non-locking heavy-duty castors for effortless mobility, while its nesting frames provide a low-profile footprint for efficient storage.
