ABOUT

This office table is a versatile solution designed to adapt to various workspace needs. With configurations available, it's perfect for individual workstations or collaborative setups. The modern design ensures seamless integration into any office layout, offering both practicality and style. Its compatibility with all TOC screens further enhances functionality, allowing for easy customization and added privacy when needed.

Built for durability and sophistication, the table features a robust 80mm x 40mm steel leg construction, ensuring exceptional stability and long-lasting use. A 5mm shadow line detail on the desktop adds a refined touch, elevating the table's aesthetic appeal while maintaining its professional look. Whether for a dynamic office environment or a focused workspace, this table provides the ideal blend of flexibility, performance, and sleek design.
