

HPCI Tambour Door Unit

ABOUT

The HPCI Tambour Door Unit is the perfect space-saving solution for modern workstations. With its innovative sliding doors, it eliminates the need for additional room to swing open, making it ideal for maximizing floor space in tight office layouts. Its versatile design integrates seamlessly into any workspace, with a variety of height options to suit your storage needs.

Designed for functionality and durability, this cupboard offers a range of accessories to accommodate all your filing and organizational requirements. Built with a fully riveted construction and backed by a 10-year warranty, the HPCI Tambour Door Unit combines reliability with long-lasting performance, making it a smart investment for any office environment.
